SDD - Ohio EPA comments - OU2 scoping doc.docx

Leslie and Brett,

Attached are some comments on the OU2 scoping document. I have not prepared comments on the full document. As we discussed, I used the Floodplain Soil Investigation as an example of some of the problems with the document, which we hope to get addressed by focusing the investigation using a conceptual site model. And then I did attach some specific comments mostly on the Site Background section which contains a few errors.

We can go over any questions on our call tomorrow.

Thanks,

Laura
